

**Raising funds**  
for the Montreal  
Heart Institute  
is easy!

# Why get involved?

The Montreal Heart Institute **treats over 68,000 patients** a year from all across Quebec.

We are stronger together, and our **participation is essential to the pursuit of excellence** in research, training, ultra-specialized care and prevention.

Heart disease is still **the leading cause of death** worldwide.

**Getting involved is good for the soul.** It's at the core of who we are: **giving, receiving, living.**

Generosity has many faces, and your **time and energy are as valuable as your donations.**

The Montreal Heart Institute has been a pioneer in the field of cardiology since 1954 and embodies the **future of cardiovascular medicine.**
